

Drag Racer Dragonfly

Instructions

A common green dragonfly, the fastest insect in the world, can fly a distance of 50 feet in 2 seconds. Complete the table.

Time (sec)	Distance (ft)	Rate (ft/sec)
2	50	25
15	375	25
20	500	25

Draw a graph to show the rate at which the dragonfly flies.
