

On The Download

mePhone versus mePhone2 - Handout

Instructions

The situation: You begin downloading a movie on your mePhone. Then, your brother starts to download the same movie 30 seconds later on the mePhone2.

Your task: Use the given facts to complete this table showing the amount of data each phone has downloaded. The elapsed time indicates when the first phone started downloading.

2 MB/s

mePhone

3.5 MB/s

mePhone 2
