

# Seeing Sums

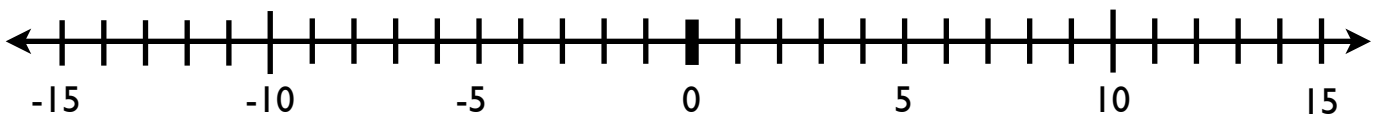

## Instructions

Draw arrows on the number line to show each addition or subtraction problem. The first problem is done for you.

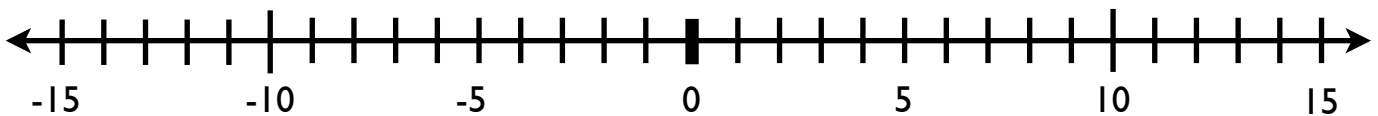

$$3 + 6 =$$

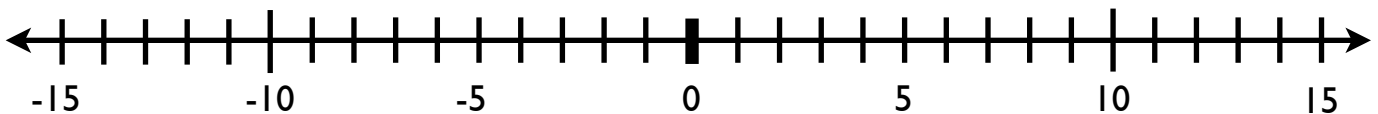

$$-4 + 6 =$$

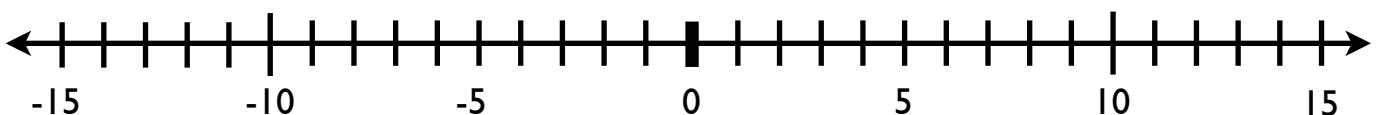

$$7 - 10 =$$

$$-1 + (-4) =$$

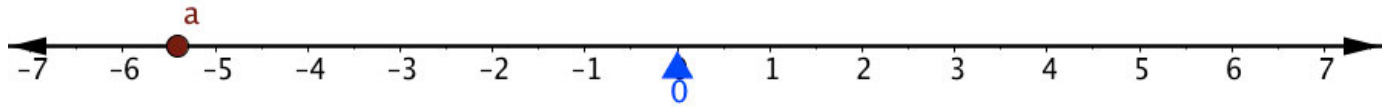

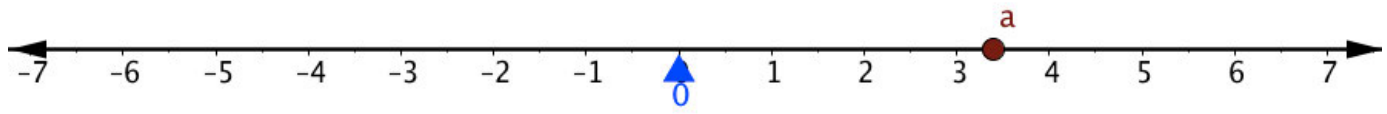

$$3 - (-5) =$$

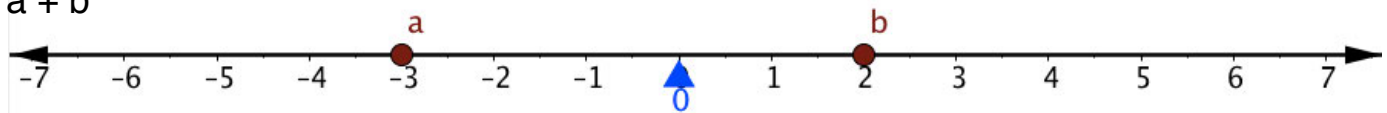

# Seeing Sums

Use an arrow diagram to locate  $-a$ .

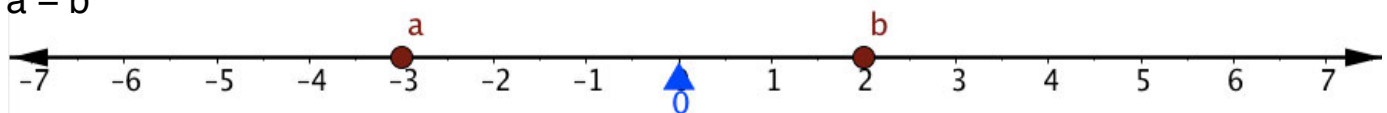

Use arrow diagrams to locate each sum or difference

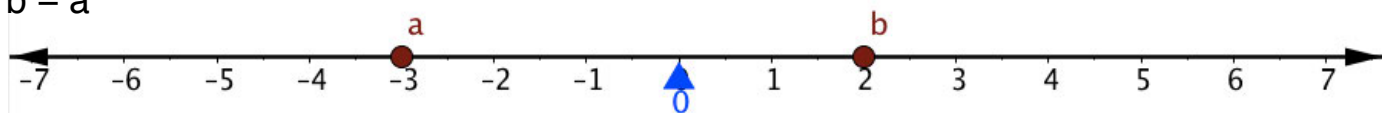

$a + b$

$a - b$

$b - a$

Use an arrow diagram to locate  $a + b$  and  $a - b$
